

rates.) Higher marginal tax rates are charged as income increases. The tax revenue generated from this tax—totaling \$49.4 billion during the 2010–11 fiscal year—is deposited into the state’s General Fund. In addition, an extra 1 percent tax applies to annual income over \$1 million (with the associated revenue dedicated to mental health services).

on these income brackets to 11.5 percent and 12.5 percent, respectively. These new tax rates would affect about 1 percent of California PIT filers. (These taxpayers currently pay about 40 percent of state personal income taxes.) The tax rates would be in effect for seven years—

^a Income brackets shown were in effect for 2011 and will be adjusted for inflation in future years. Single filers also include married individuals and registered domestic partners (RDPs) who file taxes separately. Joint filers include married and RDP couples who file jointly, as well as qualified widows or widowers with a dependent child.

^b Marginal tax rates apply to taxable income in each tax bracket listed. The proposed additional tax rates would take effect beginning in 2012 and end in 2018. Current tax rates listed exclude the mental health tax rate of 1 percent for taxable income in excess of \$1 million.
